SUGGESTED USE FOR THIS BOOKLET

Talking about HIV and AIDS and learning how to deal with this illness and the difficulties that surround it can be confusing and sensitive due to cultural taboos and shame. To overcome this, it helps to read the book called Kande's Story. It is a story about a family dealing with HIV and AIDS. As you read the story, ask questions to help people begin to talk about the issues involved and then as related subjects come up, lead people into Bible studies on those topics to find out what God thinks and says about how to handle life with a lot of emotional and physical pain and in it.
